
Title: THE THIRD AGE

Author:

THE THIRD AGE OF
DARKNESS

Once Minax was gone,
peace reigned for twenty
years. And then the last
of Mondain's legacy
became known. For he and
Minax had together
produced an unholy
creation known only as
Exodus. For many years
it had stayed hidden,
patiently gathering
information to heighten
its powers. Finally it
chose to exploit the
results of its diligence.
Creating a mighty castle
to reside in, Exodus
brought forth a third
plague of monsters, and
nowhere in Britannia was
safe from its relentless
evil. This was the
greatest challenge yet for
our hero from another
world; yet once again the
Avatar proved triumphant.
And with the defeat of
Exodus, a new era of
prosperity began.
